

Credit Name: Zubair					
---------------------	--	--	--	--	--

Assignment Name:					
------------------	--	--	--	--	--

[illegible]

What error message did you encounter (if any)?	Syntax error							
--	--------------	--	--	--	--	--	--	--

What unexpected behavior did your program exhibit?	None							
--	------	--	--	--	--	--	--	--

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)	putting to many curly braces					
--	------------------------------	--	--	--	--	--

Include a screenshot of specific lines of code.

```

1 package Mastery;
2 import java.util.Random;

```

How did you fix the issue?	Removed it
----------------------------	------------

Provide the corrected code or solution using a screenshot.

```

1 package Mastery;
2 import java.util.Random;
3 import java.util.Scanner;
